

Fig 2

A

It is a weekend after a very long hectic work week. You want to completely relax and not cook anything either. But you just do not want to sit idly at home. You plan to see a movie in a theatre and enjoy their food as well.

Next, we will ask your preferences for rewards and costs in the context of this topic. These will be referred to as "reward" and "cost" in the next 2 windows.

Continue

B

REWARD

From 0 to 100, where 0 is least and 100 is most, how **pleasant** would it be to have the following?

When considering your preferences: **do not repeat values, values do not need to sum to 100, do evaluate preferences on an absolute (not relative) scale.**

Submit

C

COST

From 0 to 100, where 0 is least and 100 is most, how **unpleasant** would it be to have the following?

When considering your preferences: **do not repeat values, values do not need to sum to 100, do evaluate preferences on an absolute (not relative) scale.**

Submit

D

1) Would you like to sit at the end of a row, but you're also sitting next to someone constantly on their phone throughout the movie?
